The Data Cloud Just Got Better

Enhance data security, unlock privacypreserving analytics, and satisfy data residency requirements with just one Snowflake instance.

skyflow for snowflake

Isolate

Centralize sensitive data in a highly secure, isolated environment with privileged access. Use tokens as stand-ins instead of replicating sensitive data.

Protect

Integrate with third-party services, run workflows, and more - all while sensitive data stays encrypted and protected in Skyflow Vault.

Govern

Quickly build and centrally manage the data access flows you need, within your organization and with third parties.

De-risk Your Data Cloud

Same Powerful Data Cloud, Without the Privacy Risks

Remove Sensitive Data from Your Data Pipeline

Eliminate sensitive data exposure across your pipeline, warehouse, analytics, and reporting tools with a vault specifically designed to protect the privacy of your data.

Analytics Without PII Exposure

Execute operations and analytics as you do today, but without exposing your systems to PII.

skyflow

Simplify Data Residency Compliance

Satisfy multiple data residency requirements with just one Snowflake instance using regional vaults that isolate and secure sensitive data.
